An approximately 22-foot sailboat, and the practical work needed to get it ready: maintenance planning, a workable budget, and summer mooring around Brockville.

I have researched mooring around Brockville and contacted a marina about 2027 availability, pricing, insurance requirements, and docking documentation. Preparation remains ongoing.

Leadership Lab / Youth leadership workshops

In development · First pilot being planned

A practical, 45-60 minute workshop for youth sports teams. I'm adapting cadet peer-leadership and group-dynamics lessons into activities about communication, teamwork, and confidence.

The workshop has not yet been delivered. The first goal is a local pilot and useful feedback on the format.
